TAMS JOURNAL

Official Organ of the Token and Medal Society

VOLUME 9 AUGUST 1969 NUMBER 4

1969 TAMS Medal

The TAMS Journal is the official publication of the Token and Medal Society, Inc., an educational and non-profit organization devoted to furthering the exonumist field. Founded on November 19, 1960, at Detroit, Michigan, the TAMS was incorporated April 8, 1966, in the District of Columbia.

All Society members receive the TAMS Journal without cost beyond their $4.00 annual dues, of which $3.50 is set aside to cover the subscription. Non-member subscriptions are $5.00 per year.

Entire contents — Copyright 1969 by the Token and Medal Society, Inc. Reproduction in whole or part without specific written permission prohibited. Cover design by Doug Watson; official emblem designed by Robert A. Johnson.

Published six times annually — the first of February, April, June, August, October and December — by the Token and Medal Society, Inc., at Iola, Wis. Second class postage paid at Iola, Wis., 54945.

—PUBLICATION DEADLINES—

ISSUE	COPY TO EDITOR	ISSUE DATE
February	January 5th	February 1st
April	March 5th	April 1st
June	May 5th	June 1st
August	June 5th	August 1st
October	September 5th	October 1st
December	November 5th	December 1st

The editor can not guarantee insertion of any editorial contributions or advertising copy received after the deadlines indicated, nor can he guarantee the accuracy of such items.

—ADVERTISING RATES AND SIZES—

SPACE SIZE	UNIT PRICE
Quarter Page—7" x 2 3/16" 3 5/16" x 4 1/2"	$ 9.60
Half Page—7" x 4 1/2" 3 5/16" x 9 5/16"	$16.80
Full Page—7" x 9 5/16"	$30.00

The outside back cover, and inside front and back covers, is available at special premium rates, subject to prior obligation.

—EXONUMIA MARKET RATES—

Ads of the one-eight page size—3 5/16 by 2 3/16 inches—are priced at $5.40 per insertion, and must be ordered for two consecutive insertions of the same copy. These ads are combined in a special section.

—CLASSIFIED ADVERTISING—

The standing rate is 8¢ per word, per insertion.

—ADVERTISING RESTRICTIONS—

All advertisers must subscribe to the TAMS code of ethical standards. The editor is vested with the right to reject any offered advertising which he feels is not in keeping with the best objectives of TAMS. All advertisers must supply their own cuts or art work, unless other arrangements are made. All ads are priced on a CASH IN ADVANCE basis. Further information regarding advertising is available by writing to the editor.

Curly's Cues

Traditionally, spring has been looked upon as a time of awakening — a slow unlimbering and lazy stretching to prepare for the busy summer ahead.

I sometimes wonder if this thinking is not a bit archaic: perhaps a carry over from "the good old days" of our childhood. If this easy going, sleepy approach to summer is still existant, it surely missed this part of the world, as my good wife Ruth and I could tell you.

We have been on the convention trail the past few weeks, and while we love every minute of it it is still kinda nice to get home and into everyday clothes again. We were fortunate in being able to attend the San Diego coin-a-rama on April 11, 12, 13th, the Cal-State convention in Palo Alto on April 17-20th, the P. N. N. A. (Pacific Northwest Numismatic Ass'n.) convention in Eugene, Oregon, on April 25-27th, the Central States show in Chicago on May 1-4th, and the R. C. D. A. show in Dallas on June 6, 7, 8th, plus a few local coin club meetings and coin-a-ramas in between. We still have the C. O. I. N. (Convention of International Numismatists) in L. A. on June 27, 28, 29th, the A. N. A. convention in Philadelphia on August 12-16th and the Canadian Numismatic Ass'n. convention in Toronto on August 28,29, 30th to mention only a few.

One thing is very noticeable to us at each of the conventions we have attended. That thing is the upsurge of interest in all things numismatic. Quite a change from a year or two ago when there seemed to be a feeling of "hold your fire" (money), "don't shoot (buy) now." This is a good omen. This is a return to normalcy.

Another heartwarming sign of our numismatic health is the nationwide interest in forums, symposiums, and good educational programs at local coin clubs.

With the wealth of information available today, the collector really has it made. There is hardly an area in the United States that does not have a coin club nearby. With the wonderful new books on numismatic, the radio, T. V. , and other news media so readily available, it is small wonder that numismatics in all areas is once more on the right track. As T. A. M. S. members we are fortunate in being associated with so many nice people who have the same collecting interests.

The next big event for T. A. M. S. is the A. N. A. convention in Philadelphia August 12th - 16th. Arrangements have been made to hold our board meeting in room 534 on Thursday, August 14th at 9:00 a.m.

T. A. M. S. and the paper money society alternate their luncheon and banquet meetings each year. Last year T. A. M. S. had a banquet. This year it is our turn to have a luncheon, which will be held in the Pennsylvania Room East at 12:00 noon on Saturday, August 16th. I know that any T. A. M. S. 'ers in Philadelphia on that date will certainly want to attend this luncheon. We have a real treat in store for you. Virginia Culver, a member of the board of governors of the A. N. A. , will be our toastmistress. "You-all come now."

The many activities at a national convention make it increasingly difficult to arrange meetings, luncheons, banquets and cocktail parties without conflicting with one or more scheduled activities. Forthat reason T. A. M. S. will not be able to have their traditional cocktail party this year.

Along with the many sightseeing tours, board meetings, committee meetings, forums, cocktail parties, and other A. N. A. "fun sessions" you will want to attend, be sure you don't forget two special events:

The new multimillion dollar U. S. mint opening on Thursday, August 14th.

The Franklin Mint cornerstone ceremony in WaWa, some 15 miles west of downtown Philadelphia on Friday, August 15th, from 10:00 a.m. to 12:00 noon.

Many people will want to attend both events. That is why our luncheon has been moved up to Saturday noon, August 16th. We hope you are able to make all these "musts."

Did you know that our 1969 T. A. M. S. medals, usually struck in silver and bronze only, will be struck in aluminum also? Better get your order in to Bill Spilman, P. O. Box 1122, Waynesboro, Virginia, 22980, BEFORE July 31st, 1969. Prices for the three medals are:

Sterling Silver -	$5.00
Bronze	1.00
Aluminum	1.50

Ralph A. Mitchell

Ralph A. Mitchell, President.

from the EDITOR

Sorry about the early deadline this month, but I wanted the Journal in your hands and still be able to make the big conventions in August. We will settle back to the regular routine in the future issues.

I am especially in need of short articles and fillers and token club news.

Our October issue will contain convention news and photos and the dedication of the U. S. Mint and the Franklin Mint, buth of which will take place within two days at convention time. We hope as many of you as possible will attend our annual event at A. N. A. and have an opportunity to meet your officers, authors, and the crew behind the scene up to their ears in glue pots.

Personally, one of my great pleasures is meeting my friends from Seattle to Montreal, from Florida to Texas, as well as those attending from across the seas. Be sure to attend the excellent forums that have been planned. Especially to an exonumist, each bit of information he can stow away can be worth its weight in gold.

Until the convention, - Adios!

TAMS

TOKEN TREASURE

Portland, Oregon was the scene of discovery of thousands of trade tokens and slugs. They were uncovered by workmen who were digging a ditch as part of the construction of the new Bank of California building.

Layers upon layers of tokens, extending more than six feet and almost a foot thick were found.

Researchers found that the tokens and slugs were buried in April, 1913, by Pacific Northwest Bell in what was a construction ditch. This was one method that the telephone company, who took in many tokens and slugs, could dispose of them. In one month they took in over 54,000 pieces and of course they were buried in the hope they would never be dug up.

It would be interesting to find out from collectors in the Portland area just what was put into telephone pay phones at that time. It is possible that some of these pieces may now be collectors items.

MONEY ON THE MOON

By Eldon Lehrbass, T. A. M. S. #1125

Strange as it may seem, money has already been coined for use on the moon. It does not come from any government source, but it is as legal a tender as any other moon money, because if it weren't we would have heard some protests against it by now.

To get down to specifics, the moon money to which I am referring is an octagonal (8-sided) piece in brass, gold-plated, and on one side says: "GOOD FOR 10¢ in trade/AT THE REGENCY COIN & STAMP CO." and, "ARENA BLDG. RED RIVER EXHIBITION OR 157 RUPERT AVE. WINNIPEG UNTIL 12-31-1961."

The opposite side states: "GOOD FOR 2 ASTRONS"/ON THE MOON"/ and: "REDEEMABLE FOR 2 ASTRONS AT ANY STORE OR BANK ON THE MOON UNTIL 12-31-1969."

This is an interesting token. Just think; anyone who has some of this moon money already has purchasing power in outer space. Of course, this power is rather limited at the moment, but it should improve by the end of the year, when this particular piece of moon currency expires.

When the American astronauts land on the moon later this year, they should take plenty of moon money, because the merchants there might not accept credit cards on purchases. (The Russians are funny that way.)

Well, I guess I should be leaving shortly. I have to be at the Cape in half an hour or I'll miss my flight. I have a cheque to cash, and it is only negotiable at the "West Bank of the Sea of Tranquility." And then, I must get over to the new shopping plaza. The M. G. A. (Moon Grocers Alliance) stores have some specials on today. You wouldn't believe how rough the roads are through that new subdivision...

Medal Tidbit No. 1

By Gunter Kienast, TAMS # 1353

The German Merchant Submarine "Deutschland" in World War I

The submarine "Deutschland" was a German merchant submarine who in 1916 under the command of Captain Paul Koenig twice broke through the blockade of the Entente, travelled to the United States and brought back in her hull important raw material for the German war industry. The ship was converted to a submarine cruiser fitted with armament in 1917, surrendered to the Entente powers at the end of World War I in 1918 only to be scrapped by its new owners.

One of the unusual events of World War I was the arrival of the submarine "Deutschland" in Baltimore on July 10, 1916. What was so unusual about this feat was not that a submarine had crossed the ocean, this had been done before, but that this ship was completely unarmed and carried merchandise and raw materials on board.

The submarine was 275 feet long, had a gross tonnage of 791 and a crew of 29. The ship left Bremen on June 23, it took her 16 days to make the crossing. The cargo consisted mainly of chemicals and dyestuffs of a total estimated weight of 750 tons. The load was declared as very valuable.

Captain Koenig reported later that he travelled submerged only 9 miles out of the total of 3,800 covered.

The "Deutschland" left Baltimore for the trip home on August 1, 1916. She carried a cargo of rubber and nickel and was said to have on board a quantity of gold also. It was not until August 23, 1916 that she arrived back in Bremen. A somewhat longer trip than the east-west crossing which only had taken 16 days.

The German population was exultant over the safe return of the ship and proud of its Captain and crew and their accomplishments. In some larger cities even newspaper extras were issued to announce the feat.

The city of Bremen had special award medals made of which one specimen in gold was given to the Captain, the remainder of the crew received the medal in silver.

The medal pictured here was made by Adolf Hildebrand and struck by the L. Christian Lauer medal works in Nuremberg. The original size is 33mm in diameter, it has a proof surface and weighs 15 grams.

The reverse shows in its middle the flag of the maritime state of Bremen in Germany. The colors are black, white and red. The legend around the rim reads: DURCHQUERUNG D.(es) ATLANT. (ischen) OCEANS DURCH D.(as) HANDELS U. BOOT DEUTSCHLAND (Crossing of the Atlantic Ocean by the merchant submarine Deutschland). The inscription to the left of the flag staff reads AUSFAHRT V.(on) BREMEN 23. VI.16. (Departure from Bremen on June 23, 1916.) The words above the flag read ANKUNFT IN BALTIMORE 10. VII. 16. (Arrival in Baltimore July 10, 1916). The inscription below the flag says RUCKKEHR NACH BREMEN 23.VIII.16. (Return to Bremen August 23, 1916.)

Captain Paul Koenig was a Captain in the German Merchant Navy. He was born on March 20, 1867 in Rohr/Thuringia and died on September 9, 1933 in Gnadau. All together he made two trips to the United States with his merchant submarine "Deutschland." After the war he became a director in the shipping firm North German Lloyd. About his experiences as the skipper of the merchant submarine he wrote a book in 1916 with the title "Die Fahrt der Deutschland" (The trip of the "Deutschland".)

NEW JERSEY TOKENS

By - Damia Francis, TAMS #16

It is said that good things come in small packages. Well, New Jersey is a small state (only Conn., R.I. and Delaware having less area) but it has played a major role in our country's history and holds a respected position out of proportion to its size.

New Jersey was settled in the 1600s and was home port for much of the colonial shipping business. New Jersey's roads became the main route between Philadelphia and New York; of vital importance in the Revolutionary War. Now, New Jersey has become a valuable commercial center, as well as a pleasant place to live.

Of its 350 miles of boundary only 50 miles of land division keep it from being an island. This natural design appealed to early traders and settlers for navigable waters and safe ports were necessary to them. Of course, these advantages suited brigands and smugglers too, and pirate treasure still washes up on our beaches.

Today's visitors to New Jersey perhaps remember industrial smoke, swampy meadows and heavy traffic. Unfortunately, railroads and turnpikes do not give the best picture of any state. However away from the metropolitan areas, we have delightfully hilly country in the north, unique pine barrens in the south, popular beaches along the ocean and lovely lakes everywhere. Come see us. We're not so tiny after all!

Now about tokens:

Although this records almost 250 issuers of over 425 varieties of tokens, it must be far from complete. I hope its appearance in the Journal will bring reports of new items as well as corrections.

Because it is only a beginning, I have not attempted to use a numbering system. For this reason too, I have described the tokens in some detail so that errors and additional pieces can be recognized quickly.

For those collectors who find it more convenient to locate tokens by place of origin, such a reference is appended. Sizes are given in millimeters, edges are plain unless noted, and a slash marks a change of line. Tokens called silver should be suspect, a number are plated.

Tokens of national fraternal and service organizations are not included.

The obverse die was made by Bridgens, a New York City die sinker.
Members of the Agens family were well known in Newark in hat, restaurant and shoe businesses. In 1843 John L. Agens had a Segar Store at 1 Commerce St. Five years later he added Periodicals and the following year advertised as a Paper Office. This listing continued in City Directories until 1860 when "& CO." was added to his name. The company consisted of John L. Agens and Charles A. Wallen. After 5 years Agens dropped out and the business continued as Chas. A. Wallen at 1 Commerce St. and 39 Broad St.

Rev. Blank
32mm nickel
Woodlynne's Borough Hall stands on the site of the first bank in America. Mark Newby came here from England, via Dublin, and brought with him a quantity of St. Patrick tokens. He had heard of the critical shortage of coins in the colonies and hoped the tokens would prove useful. In 1682 the Assembly granted him a bank charter and he opened the bank in one room of his log cabin home. The tokens were ordered to pass as half pence, and no more than five shillings worth need be accepted in any one payment. Although Newby died the next year the tokens continued to circulate.

John Gibbs was the senior member of Gibbs, Gardner & Co. of Belleville, N.J. This company worked closely with the firm of Stevens, Thomas & Fuller in making tokens and buttons. Gibbs also ran a line of stage coaches from Belleville to Newark (about 3 miles) and another from Belleville to N.Y.C. (about 8 miles). An ad in a newspaper of 1831 publicizes these stages. Mr. Gibbs moved to New York City in 1846.

29mm hard rubber black

Hard rubber tokens were in their heyday 1866-1876. The Gloucester Ferry Co. was incorporated by Hickman and Farr "prior to the Civil War". It stopped service at sundown which did not please Wm. J. Thompson who ran a hotel and bar on the Jersey side. (The ferry plied across the Delaware River between Gloucester Point, N.J. and Greenwich Point, Pa.) So Mr. Thompson bought the ferry and operated the boats for both ferry and excursion trips. He died in 1911 but the ferries continued until 1919 when the ferry house was destroyed by fire.

HOBOKEN FERRY, Hoboken
Obv. HOBOKEN FERRY
Rev. CAR CHECK
27mm brass
The Hoboken Ferry first ran in 1775 to connect N.Y. and N.J. A row boat was used for passengers and a sail boat to carry horses and wagons. During the war its boats were used by both Continental and British troops. After the war the ferry had numerous managers, John Stevens and his family being in and out of the business for many years.
The Hoboken Ferry tokens were first used in 1836 on the Christopher St. run.

HOWELL WORKS, Allaire
#1 Obv. A bunch of grapes. HOWELL WORKS GARDEN
Rev. SIGNUM 1834
22mm copper
#2 Obv. A rose. HOWELL WORKS GARDEN
Rev. TOKEN
28mm copper
These tokens have been incorrectly attributed to Belleville which is about 50 miles away from Allaire.
James P. Allaire bought the Howell Works in 1822 to supply pig iron for his engine plant in N.Y.C. Allaire was an associate of Robert Fulton and took over his marine engine plant when Fulton died in 1815.
In the 1840s the bog ore furnaces became obsolete and Allaire's self-sufficient community lost its prosperity. The buildings were unoccupied and the area was called The Deserted Village. Now it is a State Park and the shops and furnace are being restored.

In 1939 the RCA Victor plant covered 10 acres on Front St. in Camden.

In 1894 a customer came to the little general repair shop of Eldridge R. Johnson, bringing for repair one of the crude talking machines of the time. Johnson repaired it, studied it, changed it, and finally produced the first Victor talking machine. Leading singers and musicians came to Camden to make the flat disk records that Johnson substituted for cylinders. Johnson sold out in 1927 to a syndicate of N.Y.C. bankers. The company then merged with the Radio Corporation of America.

Benjamin Whitehead and Chester Hoag formed Whitehead & Hoag Company in 1870. Years later, when they retired, their sons, Ray Whitehead and Philip O. Hoag, carried on. The business is well known for making badges, tokens, political items, etc. Many tokens in this list, marked W & H, are the work of this company. In 1959 Whitehead & Hoag Co. merged with Bastian Bros. Co. of Rochester, N.Y.

I am grateful to many people for encouraging me in this project. Over the years L. L. Rudduck, George and Melvin Fuld, and the American Numismatic Society have made their N. J. collections available to me for study. Living within easy reach of the Society is a joy. The staff is always ready to help and the library is fabulous. Through the use of this library, public libraries and those of other museums and historical societies, I am indebted to the authors of countless books and articles. The Journal, The Fare Box and similar publications; numismatic magazines, papers and auction catalogues have given me useful information. Friendships formed through correspondence are truly cherished. What fun it is to piece together small bits of history! And the report of a new 'find' is always exciting. But, without the patience, help, nudging and optimism of my husband this list would not have been assembled; so, special thanks to you, Johnnie!

D. Francis

TAMS

TAMS REACHES THE 2,000 MARK!

TAMS REACHED A MILESTONE when the 2,000th membership was awarded recently to Tony Lagera of Oceanside, California. Tony is currently serving his second term as President of the Oceanside-Carlsbad Coin Club and has been very active in that area. He has served on several San Diego Coin-o-Rama committees in the past.

On this special occasion, your editor journeyed to the meeting of the San Diego Numismatic Society and Secretary Dorothy Baber made the presentation of Tony's membership card, a happy occasion for TAMS and Tony.

We are now working toward a goal of three thousand members - Why not help by sending in the application of a friend collector?

Dorothy Baber, Secretary of TAMS (left), presenting membership to Tony Lagera, while Maurice Gould, Editor of TAMS Journal, looks on.

COMMEMORATIVE GOLDEN SPIKE CENTENNIAL

MEDALS and ORIGINAL POCKET WATCHES

COMMEMORATIVE MEDALS:

24 Kt. Gold Plated, Proof Frosted Finish $3.50

.999 Fine Silver Oxidized Finish..... $15.00

(.999 F.S. Actual production and world supply only 1000)

Presentation Case for set of three medals $1.50

Presentation Case for one medal $1.00

GOLDEN SPIKE CENTENNIAL COMMEMORATIVE MEDALS

The obverse side of the commemorative medal tells the story of the historic Golden Spike event. The two historic and authentically detailed locomotives and tenders, the Union Pacific's Jupiter and the Central Pacific's 119 meet in the medal and are backgrounded by the Utah and United States maps which they transverse.

A high relief of the Golden Spike flanked by the words 'Union Pacific" and "Central Pacific" and encircled by the phrases, "A Golden Link for Progress," and "America United by Rail," which are inlaid within the railroad tracks constitutes the reverse side. The medal is 1½ inches in diameter (approximately silver dollar size)

OBVERSE

REVERSE

ORIGINAL POCKET WATCHES

A beautiful commemorative pocket watch exclusively designed for the Golden Spike Centennial- utilizes the obverse side of the 24-Kt. Gold Plated Proof Finish medal-or on oxidized silver finish medal as its face.

These fine hand-crafted 17-jewel Swiss movement time pieces are encased with in G.P. gold-filled cases, or silver chrome cases. They come complete with gold-filled or silver finish ornate watch chain and attractive presentation case. An additional medal of your choice may be added to the chain as a watch Fob.

POCKET WATCHES

Silver Chrome Finish Watch $50.00

(with silver finish Fob $55.00

Gold Finish Watch $65.00

(with gold finish Fob ..... $70.00)

.999 F.S. Fob $16.50 additional

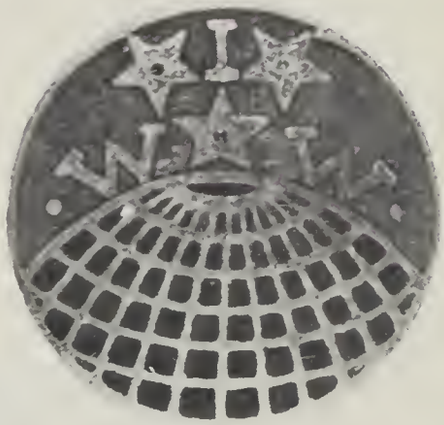
ADDITIONAL AMERICAN LABOR TOKENS AND MEDALS

By Arlie R. Slabaugh, TAMS # 305

In the Oct.-Nov., 1967 issue of TAMS Journal appeared my article on "American Labor on Tokens and Medals." I had hoped for additions from readers but none were forthcoming. However, as collectors well know, it is not at all common to see labor tokens and medals of the type covered in that article, so it is understandable that no additional specimens were reported.

Through my own "assiduous" search, I have since located a few more for my collection which I am reporting here to make the original article more complete. Specimens are shown actual size unless noted.

The Farmers Alliance and Industrial Union combined to issue a political type medal in 1891. This was the Populist revolt of the People's or Populist Party organized in Cincinnati in 1891. James B. Weaver was the party's presidential candidate in 1892. The combination of the industrial and agricultural interests is symbolized on the obverse through the use of the familiar arm and hammer of labor and the plow of the farmer. The border inscription reads, "The people versus organized greed." The reverse consists wholly of inscription, "F.A. and I.U. Unity. No man can serve two masters. 1891 Save our homes." White metal.



Newspaper readers that have been without their daily paper well know there have been some important newspaper workers' strikes. The illustrated token was issued at the time of the Hearst newspaper strike in Chicago *(Chicago American)*. It reads "Chicago Newspaper Guild for labor unity - Hearst strike 1938-9 - CIO." The reverse bears a horseshoe and "Good Luck." Aluminum.

The birth of Samuel Gompers, "Father of the American Labor Movement," is commemorated on a 1950 medal issued by Bastian Bros. Co., Rochester, N.Y., token and badge manufacturer. He was first president of the American Federation of Labor, and except for one year (1895), he headed the organization until his death in 1924. This medal is made of brass.

In my original article I mentioned the I.W.W. (Industrial Workers of the World). Although not a medal or token to which the article was largely confined, I could not resist what I considered a fortunate opportunity to obtain an I.W.W. membership pin. This well-made gilt, black and red pin with screw type reverse bears the I.W.W. initials and a globe or world.

WHY MAVERICK?

By: A. H. Erickson, TAMS #390

Frequently tokens and similar material are referred to as "Mavericks" when they do not carry enough information to be properly attributed.

As a further explanation of the word "Maverick," the Milwaukee Journal, in its column, "Accent on the News" by Doyle Gettler, reporter and columnist, carried the following in its March 25, 1969 issue.

"When, in the Spring of 1847, one of the heroes of the battle for Texas independence, Samuel Augustus Maverick, took over a herd of 400 cattle from a rancher who owed him $1200 and couldn't pay, he started something. Sam, trained in law, put the cattle into the hands of an overseer. His refusal to have the cattle branded, in a time when a brand was the only seal of ownership, soon put his name into the language. The term 'Maverick' for any roaming, unbranded steer evolved into a general term for a 'loaner' or individualist. Now, 122 years later, in choosing the name 'Maverick' for a new small car that was introduced on April 17th, Ford Motor Co. is obviously hoping that its fame will be as enduring."

So, "Run along little (unbranded) doggie" but don't roam too far from your Australian home, or we'd have trouble identifying you too.

FINAL REMINDER: TO ADVERTISERS

Ben Odesser, our Treasurer, again wants to remind you that all checks should be made out to TAMS or THE TOKEN AND MEDAL SOCIETY and *not to TAMS JOURNAL* or any individual. It will be a great help to him in his duties.
Many thanks.

MASONIC TOKENS AND MEDALS CLUB

William H. Brown, TAMS #1573, has been thinking of starting a Masonic Token and Medal Club for those specializing in this field. He writes - "Anyone interested in joining a group of this type, either Freemason or not, please write to Box 74, Hazel Crest, Illinois 60429."

• TAMS •

SPACE ELONGATED

With the great interest in space material, Don Sabo, TAMS 1534, has produced a space elongated. The space rocket appears in the center, with the legend, "Cape Kennedy, Florida. Gateway to the Stars."

He will elongate U. S. cents and dimes and intends to issue others with a space theme, with small amounts to be produced.

EXONUMIA MARKET

NEW TRANSPORTATION TOKEN

Issued April 28, 1969, by San Diego Transit Co. (Calif.) Spanish Padre and Soldier; same as official mint-struck medal commemorating the 200th Anniversary of San Diego.

"MAVERICKS"

Recently I've gotten several small token listings that I could not decipher. Please, when you send a rubbing list the exact wording on the token, making slash marks to indicate the end of the line, list size and metal. I must have this information to list your tokens. I don't have time to write you about it, so please follow the pattern used in the publication. It will help me greatly if you will list the merchants alphabetically. Mrs. C. B. Allen, 200 East Burney St., Madill, Ok. 73446.

WANTED: Colonial coins, currency, relics. Also early documents, letters, autographs, maps. Cohasco, 321 Broadway, New York 10007.

HANDSHAKE ELONGATED TOKEN

Dottie Dow, the "Elongated Gal" will have a wonderful new elongated at the A.N.A. convention in Philadelphia in August. This is her famous "handshake" token and this year the legend reads, "35th anniv. in numismatics 7-21-69; Dottie Dow, P.O. Box 5238, Phoenix, Az. 85010." There is a bust of Dottie in the center.

THE LIBRARIAN REPORTS
by IRENE ALEXANDER

We are delighted that many TAMS members are requesting books and catalogues on specialized fields of interest in token and medal collecting from our TAMS Library. Note to all members - if there is a book or catalogue not presently in the library, but which you feel would be of benefit to the membership, please let the Librarian know about it. We quite likely could obtain it for borrowing by our members.

Newly received this time are four excellent catalogues concerning German Porcelain pieces - coins (notgeld), tokens or fund-raising medals, and the first two volumes listing and illustrating, by means of splendid photographs of both obverse and reverse, medals struck by the State Porcelain Factory at Meissen for places of issue ALBRECHTS through ERLANGEN. We hope to later purchase the future volumes, as published, which will list the remainder of the known porcelain medals of Germany, through 1966. Although the text is in German, each volume contains an English translation of the Preface and general information; which, coupled with the illustrations, makes identification of porcelain pieces reasonably possible.

Another recent library-fund purchase is the updated listing of Civil War Tokens of Wisconsin, well illustrated in Doug Watson's "Guide to _____."

N. Neil Harris has compiled a history and catalogue of A.N.A. Convention Badges and Medals for the period 1908 - 1968, and has shared this information with us by donating one of the copies of its limited (25 only) edition.

Other worthwhile and appreciated donations were received from Maurice Gould (N.A.S.C. Quarterly); from R. N. P. Hawkins (H-19); from Stanley K. Ruper Rupert (C-26); and from Mrs. Pat Murdock (T-6). Our thanks to each of these.

TAMS LUNCHEON AT THE ANA

For the fourth year, Dottie Dow will donate the table favors. Each one attending the TAMS luncheon at ANA will receive the special elongated free.

This elongated will be worthwhile owning as it is an error elongated. It is dated Friday, August 15, but it was necessary to change our luncheon to Saturday and it was too late to change the engraving on the token.

If you cannot attend, you may order the elongated after the convention. The price is $1 each and they may be ordered directly from Dottie Dow, Box 5238, Phoenix, Arizona 85010.

This elongated is the fourth in a series of different coin presses featured on TAMS elongateds.

If any of our members are interested, Dottie still has a small number of the other three left.

See you at the luncheon!

Past President Medal Series

The Token and Medal Society board in 1966 authorized the inauguration of an official past presidents medal series which would honor former and future presidential office holders. A complete set of these medals with their portraits, housed in a plush presentation case, is presented to each past president, such sets consisting of one medal struck in each of three metals; gold filled, fine silver and a deep chocolate patina bronze. The silver and bronze varieties of these large two inch diameter medals were also produced for purchase by members of the Society. The medals issued for all five past presidents are currently available as follows:

President	Bronze	Silver	The Pair
1. Fuld	$6 (100)	$15 (25-10)	$20.00
2. Curto	$6 (150)	$15 (25-7)	$20.00
3. Hamm	$6 (150)	Sold Out (25-0)	
4. Culver	$6 (150)	$15 (25-5)	$20.00
5. Spilman	$6 (100)	$20 (25-6)	$25.00

The figures in parenthesis ( ) indicate the number of medals struck of each variety, with the second figure in the silver category indicating the number that remained available at the time this ad was prepared. No further examples will be struck of any of the ten listed varieties.

Immediate delivery will be accorded members placing their orders with — Exception is the Spilman medal which should be ordered through Virginia Culver, P. O. Box 96, Thiensville, Wis., 53092 — the distributing agent:
